## **Bama-Sketch**

Happily, not everything is subject to "change." The old Etch A Sketch is still very much a part of our culture, political and otherwise. "Famed" Etch A Sketch artist Tim George has rendered President-elect Barack Obama on his trusty device — it's now displayed with 43 other presidential Etch A Sketch masterpieces at the Ohio Statehouse in Columbus until December.

Only in America, folks.

The display also includes Mr. George's Etch-a-drawings of the White House, U.S. Capitol Building, Mount Rushmore, Lady Liberty, Lincoln Memorial and Jefferson Memorial.
